

VIVITTHACHAI LAPRATTANATRAI (GOOD)

Business Analyst | ERP Implementation Specialist

Bangkok, Thailand • vivitthachaigood@hotmail.com • 090-731-4191 • LinkedIn: vivitthachai-laprattanatrai • GitHub: MASTERGROOT

PROFESSIONAL SUMMARY

Business Analyst with 2+ years of full-cycle ERP implementation experience, having delivered successful rollouts for 10+ clients across the construction and project-based industries. Specialized in business requirements gathering, AS-IS/TO-BE process mapping, and multi-module ERP configuration covering finance, procurement, and project operations. Proficient in SQL, Python, and Power BI; experienced in bridging complex operational workflows and technical execution across cross-functional stakeholder teams.

EXPERIENCE

Business Analyst | *BuilK One Group — POJJAMAN ERP* | Bangkok, Thailand Apr 2024 – Present

- Led full-cycle ERP implementation for 10+ clients in the construction and project-based sector, owning all phases from requirements discovery through go-live and post-launch support across 8 modules: Project, Purchase, Subcontract, AP, AR, Accounting, Tax, and List Manager
- Conducted business requirements workshops and stakeholder interviews with C-level executives and department heads; delivered AS-IS/TO-BE process flow documentation and gap analyses that served as the configuration baseline for each deployment
- Designed cross-departmental data architecture consolidating all business processes into a single centralized ERP database; produced SOPs, system flow diagrams, and department-level work instructions adopted as permanent operational references
- Guided clients through master data preparation and balance-forward migration; established data validation standards and pre-go-live checklists to maintain system integrity at each launch
- Served as primary liaison between client operations and the development team, translating business-edge requirements and exception scenarios into technical specifications and coordinating resolution of custom ERP configurations
- Monitored post-implementation performance across active client accounts; managed issue tracking logs, escalated system defects for resolution, and issued phased completion certificates at each milestone sign-off

Ride Operator (Work and Travel) | *Busch Gardens Williamsburg* | Virginia, USAMay 2023 – Sep 2023

- Operated ride control systems and enforced safety protocols in a high-volume, multilingual environment; delivered guest communications in English across daily operations serving thousands of international visitors
- Maintained zero safety violations over a 5-month contract through routine equipment inspections and real-time incident reporting to management

Site Engineer Intern | *Visavapat Co., Ltd.* | Bangkok, Thailand Apr 2022 – Jun 2022

- Supervised building construction workflow and quality control; coordinated with foreman teams to ensure execution aligned with technical specifications and project timelines
- Performed material quantity take-offs and cost estimation; reviewed and verified shop drawings for compliance with engineering standards

EDUCATION

Bachelor of Engineering, Civil Engineering — *Kasetsart University* 2019 – 2023

GPA: 3.03 / 4.00

SKILLS

Data & Analytics: SQL, Python, Power BI, Excel (Advanced)

ERP & Tooling: ERP Implementation, Xtra Report Designer, JIRA, Confluence, AutoCAD

BA Methods: Requirements Gathering, Process Mapping, Gap Analysis, UAT, SOP Development, Stakeholder Management, Change Management

Domain Expertise: Construction ERP, Finance Operations (AP/AR/Tax), Project Management, Procurement

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Data Analysis with Python — freeCodeCamp
- Scientific Computing with Python — freeCodeCamp
- White Hat Hacking for Security
- Graduate Project Award — Kasetsart University (2023)

PROJECTS

Design for Stability of Steel Building — *Graduate Research, Kasetsart University (2023)*

- Modeled structural stability using STAAD Pro and ABAQUS; analyzed computational results to validate design efficiency benchmarks for multi-story steel frame structures
